DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12, the limitation "unique synchronization gap template" lacks of proper antecedent basis.

Claim Objections

3. Claims 5 and 10-22 are objected to because of the following informalities: claim 5, line 4, before "cross", the" should be deleted. Claim 10, line 5, shouldn't "respective" be inserted before "predetermined". The same comment applies to line 8. As per claim 13, line 10, the limitation "between spreading waveform **signals**" is not consistent with recitation of "a spreading waveform **signal**" in line 8. Claim 17, please identify in the specification and drawings the means plus function limitation as recited in the claim. Claim 18, shouldn't "first signal" be replaced by "sequence"? Note that any claim whose base claim is objected is likewise objected. Appropriate correction is required.

Allowable Subject Matter

4. Claims 5, 10-22 would be allowable if amended to overcome the objection set forth above.
5. Claims 1-3, 6-7.

Response to amendment

6. Applicant's response has overcome all issue raised in the last office action as a result, the same has been withdrawn. However, after further consideration, a claim objection and rejection set forth above.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
